ADMINSTRATION
Peace times, not
war times. Slothful administration.
Minimum amount

ROAD WORK ACHIEVEMENTS THE CLAIM .- That Republicans have constructed in Weber county 17.5

miles of surfaced roads.

THE TRUTH .- That the Republicans contracted just one mile of surfaced road in their administration; that is at Hooper; Is on a side road, and COST \$30,000.00. They finished the Ogden canyon and Ogden-Brigham City reads, which the Demo-crats contracted. About two miles of surfacing were laid on the Og-den-Brigham City rond, and 7.03 miles in Ogden canyon, but more than 40 per cent of the cost of the latter road was paid for in 1920 by taxes levied that year. Only about 10 mills altogether.

THE CLAIM.—That the Republican administration constructed two miles of tarvia road.

THE TRUTH .- That one carload of tarvia was used to surface about a quarter mile of road at Harrisville.

THE CLAIM.—That the Republican administration built a concrete

THE TRUTH.—That such a bridge was contracted, and work has com-menced, but that two-thirds of the work, and about two-thirds of the expense of that bridge must be tak-en care of by the Democratic admin-istration which will go in office next January.

The great system of surfaced roads In great system of surfaced roads in Weber county was the work of the Democratic administration between 1917 and 1920. It was paid for in those years, almost wholly. Yet with the state road levy reduced from 2 mills in 1920 to .45 mills in 1922, by reason of the fact that this work was out of the way, you STILL PAY MORE TAXES.

WHERE YOUR STATE TAXES WENT

In the first year of Republican Control the expenses of operation of nearly all state offices, commissions and departments were increased.

The Department of Finance and Purchase was installed at a biennial expense of \$45,000.00.

The net increase in expense of operating all state offices, commissions and departments for the first half of the present biennium over the first half of the last biennium was more than \$200,000.00.

A partial list of increases follows: Secretary of State \$ 6,746.53 Juvenile Court 5,476.54 Bank Commissioner 5,008.64 State Engineer 5,884.38 Board of Health 9,473.82 District Courts 31,636.26 Jurors, Witnesses 3,424 66

Industrial Commission . . . 18,074.10 Department of Finance

and Purchase 18,610.08 Department of Agriculture 54,665.32

This is the actual increase in expense of operation during the period, and does not include disbursements made for deficits of previous years. The cost of operating public schools increased more than 25 per cent in 1921 over 1920. Has the Republican administration reduced taxes? It has made NO reduction in taxes but has increased the levy for state taxes in 1922 from 2.2 mills to 2.4 mills, and this increase will be insufficient to take care of the in-

crease in expense. During this same period the Republican administration has increased the bonded indebtedness \$1,500,000 and will have a large deficit at the end of the

The state's indebtedness is now in excess of the one and one-half percentum of the assessed valuation, the limit of indebtedness provided by law. The Republican administration urges an amendment to the constitution in-

creasing the debt limit so that it can borrow more money to care for its de-
